

THE HIGH TECHNOLOGY COUNCIL (HTC)

JOIN THE COUNCIL GROWING THE DUAL-USE TECHNOLOGY MARKET

The High Technology Council unites key market players to more quickly and effectively bring venture-backed, commercially developed technologies to bear on government-funded national security missions.

The first consortium of its kind, the HTC has a single goal: the development and growth of the dual-use (commercial and government) technology ecosystem and the business opportunities it presents.

WE HELP OUR MEMBERS SUCCEED IN THE DUAL-USE TECHNOLOGY MARKET THROUGH THE HTC'S:

Networks

- » Nontraditional technology companies and start-ups with proven funding and demonstrated government demand for their products/services
- » Venture capital firms
- » Enabling partners with expertise tailored to the dual-use technology market (including banks, law firms, cloud providers, and more)

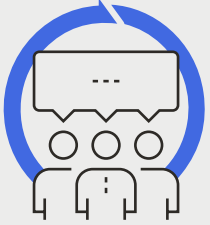

Expertise

- » Experience in navigating the many differences between government acquisition and doing business in the commercial sector
- » HTC quarterly growth and networking events that educate members about government market idiosyncrasies, including security, cloud computing, and foreign investment

Opportunities

- » Find new partners and customers
- » Acquire additional government work through the HTC's established pathways
- » Develop new solutions and integrate new technologies into old platforms
- » Reduce time to market, overhead, and business development costs
- » Grow sales and market share

Help Shape the Future with HTC Thought Leadership Opportunities

Your membership in HTC will allow you to learn from others and share your expertise through:

- » HTC annual Offset Symposia, which bring the government, technology, venture, and defense sectors together to discuss issues of technology and national security
- » Contributed articles in leading publications
- » Participation in speaking events and other forums

Membership Dues

Annual dues are \$500 for all members

Membership Benefits

- » Free entry to all HTC events, including growth and networking quarterly events
- » Access to the HTC's government agreements
- » Discounted products from HTC enabling partners
